THE OLD RELIABLE.

AWAY FROM THE LIGHT

A Secret Chamber Where Gambling Is Alleged to Have Been Carried on.

FLOORS AND TABLES PADDED.

The Recent Arrests Have Caused the Occupants to Abandon the Den.

On the north side of West Main street, not more than 20 paces from Pipestone street, is a building, the ground floor of which is occupied in front with a restaurant, where coffee, sandwiches and doughnuts are sold.

There is nothing suspicious about the appearance of the room and every day men step inside, eat a doughnut and drink a cup of coffee, without knowing that within a few feet of where they sit is a door which guards the entrance to a den which the police officers have reason to believe was the rendezvous of a gang of gamblers.

Chief Sterns has been keeping the place under surveillance ever since he was placed at the head of the police department, and yesterday after the arrest of the two men charged with maintaining gambling houses, the police officers had the pleasure of seeing the mysterious door in the rear thrown open, permitting the light of day to enter a room reeking with the odor of tobacco mingled with the stifling atmosphere of a place long unlighted by the sun's rays and long unventilated.

This room was visited by a NEWS representative this morning. It was pointed out to him by Chief Sterns, and when the officer was asked how he heard of its existence he simply smiled. There is no rear entrance to the den, there is no side entrance and all who became occupants of the place were compelled to walk into the restaurant. This they could do without attracting or creating suspicion regarding their movements. If there were officers about the door at the rear of the restaurant remained closed and those who sought admittance were obliged to wait in the restaurant until all strangers had disappeared. Then the door cautiously opened, admitted the representatives of the "profession" and closed again.

There was never a sound of clicking chips heard outside the door. Every sound was muffled by a padded floor and padded tables. It was not intended that the world should know the occupation of the habitues of that mysterious room. There was only one table there this morning and the furniture is arranged to convey the impression that the place is only an inoffensive annex of the restaurant where customers can idle away their unemployed hours at a social game for fun.

The room is devoted to no particular purpose now. Its proprietors have been frightened and it will be a long time before a stack of chips, representing the winnings of the gambler, will grace the tables. The interior of the den is so suspiciously furnished that a complete renovation is necessary before its appearance will fail to create wonder. When the only exit to the room is closed not a ray of light enters the place and it is as dark as the remotest recess in a dungeon. With the door open this morning it was necessary for THE NEWS representative to light a match in order to survey the furnishings.

There was once a window on the west side of the room but this has been boarded up and padded to prevent the sound from reaching the outside. On the north side of the room is a doorway but the door is never opened. It is securely locked and the crevices are filled with rags. There is a dozen chairs in the room and the only table, the regulation gambler's table, is covered with a heavy cloth to muffle the sound of the chips.

Anyone can walk into the room now without any remonstrance from the proprietors. They have a studied air of unconcern and betray no uneasiness when the room is inspected. It is thought that this place has been in operation as a gambling den for some time. The officers have collected considerable evidence against the proprietors, and may possibly use it.

THANKING A COMPETITOR.

Teetzel & Haydon Make a Few Pointed Remarks.

We wish to thank our worthy opponent through our papers for his kindness in advertising our goods for us. He has helped us more than anything we could have said ourselves and if the ad is not paid for, if the editors will come to us we will gladly pay for it as we feel it an obligation. We never forget a kindness. The auction goods the gentleman speaks of are made by three of the largest and most reliable manufacturers in America, which are the Rockford, Fairpoint and Towle. Care should be taken by our opponent what he says in regard to the goods we handle, as our goods are paid for and the manufacturers stand back of us. We never knew them to send out auction goods.

As our opponent is known slightly by these firms (in a business way) we advise him to be wary. We can't possibly sell watches by the bushel as we do not buy them that way. We select each and every watch and are not afraid to guarantee them in the papers. We draw the line of standard watches as makers and we never handle single watch goods.

TEETZEL & HAYDON.

AN INHUMAN PARENT.

A Father Charged With Ruining His Daughter.

Theodore N. Hinds, of Coloma, was arraigned before Justice Graves this morning on the charge of rape, his victim being his own daughter, 11 years old. His examination was set for 3 o'clock this afternoon.

The little girl told the story of her father's brutality to neighbors who reported the case to County Agent Whitehead. Mr. Whitehead obtained a statement from her which warranted the arrest of her father and he was taken by the officers yesterday.

It is expected to show by the testimony that the inhuman father has long been guilty of the crime charged against him.

CAPT. BROWN IS DEAD.

He Was One of the Survivors of the Wreck of the Steamer, Hippocampus.

SAILED THE LAKES FOR YEARS.

St. Joseph Has Known the Captain for 63 Years—He Had an Army Record.

Capt. Henry M. Brown, 63 years old, died at the Lake View hotel in St. Joseph last night at 9 o'clock. He had been a resident of St. Joseph during his entire life and was known by every sea captain who ever sailed into the St. Joseph harbor. The captain had been a seaman for nearly 20 years and his acquaintance among navigators was extensive.

Death was the result of rheumatic trouble. The captain had been ill for six months and his death was no surprise to those acquainted with his condition. Early this spring he had several severe attacks of the disease, from which it was expected he would not rally. His two sons, Charles L. Brown of Ft. Wayne, Ind., and Walter H. Brown, of Steamboat Springs, Colo., the only surviving members of his family, are both here. The funeral will be held from the hotel tomorrow at 4 o'clock and the body will be taken to Chicago and interred at Griswold, where the remains of the wife are buried. The Captain was one of the few survivors of the foundering of the steamer Hippocampus in 1868 when 26 lives were lost. He was taken off the wreckage by a tug after three days of the bitterest hardships. This experience prejudiced him against sailing and he never thereafter shipped on another boat in any official capacity.

The captain was born in Rochester N. Y., September 26, 1833. One year later his father, Hiram Brown, moved with his family to St. Joseph. In the year 1848 the captain entered upon a seafaring life, shipping first as a deck hand on board the brig, St. Louis, commanded by Capt. Boughten.

A few years later Capt. Brown was made the master of the schooner, Experiment and from 1854 until 1862 he sailed the lakes in the capacity of captain of different vessels. In 1862 he enlisted with the Nineteenth Michigan Infantry. He was commissioned as adjutant and remained in the service for three years when he was compelled to resign by reason of physical disability. He was wounded at Resacca, taken a prisoner and confined in Libby prison three months.

Returning home after his army experience the captain took up his old occupation of sailing which he continued until 1868 when the Hippocampus went down.

Since 1872 until his health gave out, Capt. Brown was engaged in the shipping business. His wife died in Chicago in 1882 and since then he has lived at the Lake View hotel. He was a member of Occidental lodge, F. & A. M., and was regarded with esteem by all.

LETTER NEVER SENT.

Hon. Roman I. Jarvis Explains That Julius Caesar Burrows Hard Money Letter.

IT WAS SCRIBBLED FOR FUN.

Mr. Jarvis Used It to Experiment With a New Letter Press in the Postoffice.

Former Postmaster Roman I. Jarvis was called upon by a delegation of silver men at the office of his newspaper last evening and they demanded that he cause the arrest of somebody for forging the letter which Dr. Rockwell had printed yesterday.

Upon reflection the former postmaster remembered that he had written the letter inviting Senator Burrows to a "national honor" meeting but that it was never sent. It was written to be used in experimenting with a new copy book at the postoffice.

Concerning the matter Mr. Jarvis writes:

EDITOR EVENING NEWS: With your permission I will reply to the letter in yesterday's NEWS from Dr. H. C. Rockwell. No doubt the doctor was instrumental in having me evicted from the postoffice and the methods employed would pale a Jesse James with shame. When petitions are headed one way and then after the signatures are secured the heading changed constitute a serious matter and is underhanded and even criminal. The secret archives of the postoffice department can speak and if the facts of my removal were made public they would occasion no surprise to Dr. Rockwell or the incumbent of the position.

As to my convictions politically they are the same that they have been ever since 1874, when I first began to mingle in politics along the line of financial reform and I am by the events of the last few months, since the gold wave of prosperity has begun to roll, more fully convinced than ever that my early conclusions were right.

In the last election I stood for my principles and went down with my colors flying to rise some other day. The letter which Dr. Rockwell had printed I wrote and it has been obtained unlawfully by him. The law says plainly that to extract a leaf from any book in the postoffice is a punishable offense. This letter written on February 15, 1895, was written simply to experiment with. It was never sent to Senator Burrows and there was no republican club in existence here at the time. In February, 1896, I was instructed to change the money order system and adopt what is known as the filing system. This required that a copy press be used. As the report blanks were very large it took a large letter press and book. When the press was set up ready to use I called in James Mahoney to teach me the best method of making a perfect copy. February 15 was Sunday and Mr. Mahoney came to the office in the forenoon. For the purpose of making an experiment in just I wrote the letter which appeared in THE NEWS yesterday. After the copy was taken in the letter book the original was destroyed. The experiment was witnessed and the letter laughed about by Mr. Mahoney, my daughter, brother, and the clerks. The letter Dr. Rockwell has is a tissue torn from the copy book at the postoffice which I presume he thought would prove of great value to him in his hard money campaigns.

The idea of my being delegated to issue an invitation for a republican club is preposterous. I have never been in the habit of being asked to join republican clubs. I never was a combination candidate expecting to go to Lansing on republican votes. I always figured on my party vote and not on republican votes. This letter has no relation to what it was supposed to convey. It was not like the letter sent to the postoffice department in 1893 carrying the statement that I was a member of the A. P. A., which society I never thought of joining. That letter I now have in my possession.

Dr. Rockwell says he never was a silver man but I recall that he was the chairman of a meeting in Yore's opera house when a man from Missouri spoke and James O'Hara made a good silver speech and Dr. Rockwell could not applaud enough. Don M. Dickinson was for silver then for this was before Grover had told Don what to do.

Dr. Rockwell's reference to an anarchist is old and a back number. Go after something new, for that chestnut is known by heart. Yet we have real anarchists and the doctor is the best local representative of such a monster—a man who admits he made a bargain with republicans to sell out his party if they would allow "gold democrats" to fill the unexpired terms of such offices as they might be able to have removed. How sacred the principles of the doctor are! Please do not sign yourself as chairman of the democratic county committee. You are chairman of the web footers of the first ward of this city.

THE GOLD DEMOCRAT VOTE.

Silver Men Claim Its Growth Is a Mistake.

J. J. Miller, one of the leading silver men in the city, objects to the statement that the vote of the gold democrats is growing in this district.

Mr. Miller says the large vote that ticket received was because many democratic silver men voted carelessly, and forgetting all about the "national democracy" they voted under the democratic flag instead of under the silver dollar. Two of the many instances of this kind are the meat cutter employed by Mr. Miller and the father of ex-Postmaster Jarvis.

CIRCUIT COURT ADJOURNS.

Next Monday the May Term Will Begin.

The circuit court adjourned last night without concluding the taking of proofs in the Weber-Hall case. The defendant Charles W. Hall was on the witness stand a large share of yesterday and among other startling features of his testimony was the statement that he had charged the complainant \$107 for advising him regarding the danger of uttering forged papers.

The suit, it is remembered, is brought to secure the restoration to the complainant of two pieces of real estate valued at \$2,200 upon each of which is a mortgage of \$500, the property having been deeded to Hall by Weber as security for a loan of \$50 for ten days, the tenth day falling on Sunday. Weber appeared the Monday following with the \$50 and the defendant told him he did not owe him anything, nor would he surrender the deed, claiming that his right to the property was absolute.

The circuit court will convene again next Monday which will be the opening day of the May term. One day's session will be held and an adjournment will be again taken until Tuesday, May 25.

HELP, CRIED THE MAN.

NOT WELL ENOUGH TO WORK. YET NOT QUITE ILL ENOUGH TO QUIT.

Many Another Man Has Doubtless Felt as Did Humphrey Slater, of Detroit, Who Suffered Till He Took Dodd's Kidney Pills.

DETROIT, Mich., May 15—Another man stands up to be counted as one of many here in Detroit, who have been cured of pains in the back and kidney trouble by the use of DODD'S KIDNEY PILLS.

He is Mr. Humphrey M. Slater, of the firm of Cox & Slater, carriage makers, at 914 Grand River Avenue. Mr. Slater, like many others, was not well enough to work, yet not quite ill enough to quit. He struggled on, hoping that he would feel better, yet knowing that he must have help as well as hope. He took DODD'S KIDNEY PILLS and they did the business. They relieved his pains, made him feel like a new man and put him on the roster of health again.

DODD'S MEDICINE CO.: Gentlemen:—I started using DODD'S KIDNEY PILLS about a week ago, and am pleased to state that I feel much benefited and am now able to attend to my work. I suffered with severe pains in my back, caused by kidney trouble, and feel so much improved that I am sure a continuance of the pills will cure me, and I am thankful to have found out the merits of your remedy.

Devonshire Terrace.

Dickens was 27 years old when, in 1839, he moved from Doughty street to Devonshire terrace. George du Maurier lived for some years in Devonshire terrace.

In this now celebrated house Dickens wrote no fewer than ten of his books: "The Old Curiosity Shop," "Barnaby Rudge," "The Christmas Carol," "American Notes," "Martin Chuzzlewit," "The Hunchback of Notre Dame," "The Tale of Two Cities," "Dombey and Son," "The Cricket on the Hearth" and "David Copperfield." Devonshire terrace was situated at the corner of the Marylebone road and used to be called the smallest terrace in London.

Atlantic Liners.

There are fully 1,000 tons of piping of various kinds, it is said, in the average Atlantic liner. The condensers will pump up at least 50,000,000 tons of cool water a day. The furnaces will consume no less than 7,500,000 cubic feet of air an hour. The boiler tubes, if placed in a straight line, would stretch nearly ten miles and the condenser tubes more than 25 miles.

ENCOURAGE HIM.

J. A. Simon Will Begin on the Opera House Scheme Monday.

J. A. Simon has received assurance of being able to procure the city lot on reasonable terms and beginning Monday will circulate a paper for subscriptions for shares in a stock company which will be organized to build a new theater.

Mr. Simon should receive the encouragement of every citizen. He is disposed to donate his time in the furtherance of an enterprise, the consummation of which the city is greatly interested in, and no better opportunity will ever come to Benton Harbor to secure a play house without which no city is complete.

HATES GOVERNOR PINGREE.

Dowagiac Man Compares the Executive to Pingree.

Fred. E. Lee of Dowagiac thus expressed his opinion of Governor Pingree at the banquet of stove makers in Detroit: "There isn't a man present who has not heard of Pingree potato patches. We haven't heard of anything else here in Michigan, but did any of you ever see any of the potatoes? I have been all over the state, but I cannot remember observing any good that has been accomplished. Pingree has done more to 'place this magnificent lake state in ill-repute than any dozen men could do. If he keeps on, Michigan will line up with Kansas, for Pingree is worse than Peffer, who killed that state."

Mr. Lee is not sympathetic with the governor's idea of taxation. Mr. Lee is manager of the large Beckwith estates which has received a partial exemption of its property in Dowagiac from taxation for a number of years.

GHOST STORIES.

They Were Related at the High School Reception.

Misses Southgate and Gibson entertained the rest of the high school faculty and the seniors at the residence of Captain Rounds on Britain avenue last evening.

While all were gathering the time was spent in relating ghost stories of which one of the hostesses seems to have had a great number of personal experiences. Names of kings, queens and other persons of high rank were pinned on the backs of the visitors and they were compelled to search for their partners for refreshments. This was indeed a task for Henry VIII whose six wives proved a source of great trouble to that royal personage. Strawberries and ice cream were served.

The remainder of the evening was spent in guessing quotations and writing telegraph messages from a certain number of letters decided upon. Shortly after eleven the guest took their departure only regretting that they could not come to school another year that they might be so hospitably entertained again.

The senior class will be the largest that has ever been graduated from any school in the city. Following is a list of the twenty seven members:

Katherine Allen, Lois Bassett, Orlov Buckley, Clayton Beckwith, Walter Banyon, Laura Durkee, Roy Denning, Charles Durr, Lela French, Alice Gilson, Katherine Gross, Florence Hawkins, Belle Hemingway, Ray Hemingway, Otis Judson, Cassie McCartney, Laura LaMunion, Albert Parsul, Myrtle Ruth, John Reese, Edith Storm, Margaret Storm, Irven Spencer, Lillian Williamson, Carrie Westcott and Sarah Van Camp.

The Science of the Morning Fast.

Dr. E. H. Dewey says that the heavy morning breakfast which is universal in America is all a mistake. The hunger one feels is abnormal and is simply the acquired result of a lifelong untimely meal. More than this, it is often disease undergoing evolution, and many complaints are cured simply by not taking anything beyond a small cup of tea or coffee, and sometimes not even that, until 11 or 12 o'clock. The experience of hundreds of persons proves that even the severest manual labor can be performed for several hours "on an empty stomach" and with more ease, energy and satisfaction than ever is possible after an early morning meal, and that it can be done even up to high noon without unusual exhaustion or inconvenience from the pangs of hunger. A great many people are now giving this matter a prolonged test, and the wisdom of the method is clearly supported by physiological evidence.—Exchange

The Ralli cabinet has managed to
lead Greece into as bad a predicament
as ever befell a nation. It has com-
promised itself with offers of conces-

Chief Donoghue Also Benefited by Paine's
Celery Compound.

WASHINGTON, May 14.—In all the
departments at Washington Paine's
celery compound has become the office
expression for an ideal invigorator
when one is "run down" by overwork,
confining duties, or any of the many
causes that result in ill health.

Here is what a prominent official in
the Department of the Interior says of
Paine's celery compound:

Department of the Interior,
General Land Office.
It affords me much pleasure to state
that Paine's celery compound has been
to me an excellent spring remedy, and
particularly beneficial to the nervous
system and digestive organs. I cordially
commend its use.

M. F. DONOGHUE,
Chief of Contest Division.

Among the thousands of voluntary
letters of acknowledgement for benefit
derived from Paine's celery compound,
there have already been published in
the Washington papers testimonials
from men representing every depart-
ment of the national government—not
only from many of the best known con-
gressmen, but from hosts of hard-work-
ing clerks unknown outside of their
immediate circle of friends. Some of
those who have voluntarily indorsed
Paine's celery compound are:
Congressman Powers of Vermont.
Congressman Meredith of Virginia.
Congressman Bell of Colorado.
Congressman Neill of Arkansas.
Congressman Wilber of New York.

Congressman Groat of Vermont.
Congressman Otis of Virginia.
Mr. Corliss's Private Secretary.
Hon. William R. Smith, Supt. U. S. Botanical
Garden.
Maj.-Gen. Hirney.
Commodore Howell.
Lieut. C. A. McAllister.
Hon. F. H. Stickney, U. S. Navy.

Paine's celery compound builds up
the "run down" health in a sure, unin-
terrupted, steadfast fashion from which
there can be no relapse. It wipes out
unhealthy humors from the blood,
opens up the skin and makes it do its
full share in purifying the blood. This
cleansing the blood through and
through is one of the unfailing accom-
plishments of Paine's celery compound.

From a life-long contact with the
many forms of nervous debility and im-
pure blood, Prof. Edward E. Phelps,
M. D., LL. D., of the Dartmouth Medi-
cal school, was led to the discovery of
Paine's celery compound as the crown-
ing achievement of an extraordinarily
active and successful professional life.
No acceptable substitute for Paine's
celery compound exists. Each year
further accumulates evidence of the un-
equalled capacity of this greatest of all
known remedies for restoring health
and vigor.

Now that spring has come, nerves,
blood and vital organs cannot remain
clogged by poisonous humors nor starv-
ed by overwork and lack of sleep with-
out great risk. Paine's celery com-
pound is the most intelligent, wisest
means anyone can employ for driving
out disease and restoring a healthy
tone to the entire system.

THE L. O. T. M. will meet tonight and a full attendance is desired.

Rev. L. W. Earl will preach the memorial sermon at New Buffalo on Sunday 23.

FORESTER & WESTCOTT, contractors on the Tunnel road, are cashing time checks today.

THE ladies of the Second Baptist church will give a social in the church next Friday evening.

"THE Grand Rapids Newsboys' band will draw a house to the doors," said J. A. Simon today, former manager of the Grand opera house.

THE West Michigan railroad will run the first excursion of the season from Grand Rapids to Benton Harbor and St. Joseph a week from tomorrow.

THE funeral of William MacKay will be held from the Presbyterian church tomorrow afternoon at 2 o'clock. The funeral carter will leave the house on Main street at 1:30 o'clock.

A WEEK from next Monday the Grand Rapids Newsboys' band will appear in Benton Harbor. Great interest is being taken in the approaching visit. The admission will be 25 cents and children 15 cents.

A. T. PATTERSON has been given the contract for printing the supplies of the Phoenix Accident & Sick benefit association. Another recognition of the capabilities of the Patterson printing establishment.

TOMORROW afternoon if the weather permits, the choir of the Universalist church will accompany Rev. George A. Sahlin to Pearl Grange and sing at the service beginning at 3 o'clock. A number of people have signified their intention to go.

COLOMA Courier: Unwarned by Coloma's experience with the Chicago Hussars, the Black Hussars and the Centaur Equestrian club of Chicago in 1896, Benton Harbor is considering the proposition of having the second regiment of the Michigan national guards there as a Fourth of July attraction this year. The regiment numbers four hundred tin horn fighting men, and local papers estimates its followers at something near fifteen thousand men, women and children.

THE Coloma Courier intimates that Champion George Calderwood of this city did not care to fight the Grand Haven Johnston at the recent "mill" in Coloma. In regard to the matter Mr. Calderwood says: "The Courier has learned from many reliable sources aside from the manager of the opera house, that George Calderwood knew that his name was to be used in a glove exhibition with A. J. Johnston and promised to be in Coloma Thursday evening. As far as the cash was concerned Mr. Calderwood had a chance to see \$25 of Johnston's backing money before he left Benton Harbor. The cash was in sight, so was Johnston, but Calderwood was not."

The line of sandwiches served at "The Brunswick" are gotten up in a style entirely new and original.

Edward Coates Run Down By A West Michigan Train.

Edward Coates, of Rochester N. Y., was run down by a West Michigan freight train two miles south of St. Joseph, this morning and instantly killed. He was tramping and expected to stop in St. Joseph until the berry season opened when he would seek a position gathering the fruit.

It was about 8 o'clock when the accident occurred. Coates and a companion named James Hurlbert were walking over the ties. They had covered the entire distance from Chicago on foot. There is a sharp curve in the West Michigan tracks at what is locally known as the "Summit," two miles south of St. Joseph, and when the men reached this point they were warned of an approaching train by a shrill shriek from the locomotive whistle.

Owing to the curve in the tracks the engineer did not see the men until he was close upon them. The first blast of the whistle caused Hurlbert to jump from the track, but Coates, who was somewhat deaf, remained. His companion tried to warn him of the approaching danger, but he did not discover it until too late. He was leaping from the track when the engine struck him, crushing his skull into fragments and bruising his body in several places.

The train was No. 33 and the engine No. 172. As soon as possible the train was stopped and the dead man lifted to the caboose and brought to the station.

Acting in the capacity of coroner Justice St. Clair had a jury impaneled composed of Amos Bowen, William Preston, Richard Metcalf, George Topping, Charles Shaffer and M. O. Hulmer. The inquest was held at the station. The engineer and fireman and the deadman's friend were sworn as witnesses and facts as related above were developed. Death was attributed to accidental causes.

The body was conveyed to Weekler's morgue and unless word is received from friends of the deceased at Rochester N. Y., whom the authorities are now trying to reach, the body will be buried here tomorrow at the expense of the county. Coates was 45 years old.

INFORMATION FOR THOSE WHO INTEND VISITING THE CITY.

The "Swell" Eating Places and Samples of Their Charges—Prices That Some- times Astonish Even High Rolling Americans.

Those Americans who think that New York is an expensive place ought to go to Paris. There is no doubt that the prices of New York at first class places are high, but the New York restaurants have not reached such expertness in making out bills as they have in Paris. Therefore it is not at all uncommon to notice an American with his wife going over his bill with the hair slowly rising upon his head.

There are plenty of places in Paris where you can get a dinner cheaper—the bouillions Duval, for example. These restaurants are sprinkled all over Paris, and they give you plain food very well cooked at a reasonable figure. But the average American generally goes to the swell places, which are about 12 in number. There is the Cafe de Paris, Oubet's, Chevallard's, Durand's, Joseph's, the Restaurant Larue, the Tour d'Argent, Mair's, Paillard's, the Maison Doree, the Cafe Voisin and the Restaurant Lucas, together with the Cafe Anglais, the Lion d'Or, Foyot's and Marquery's, if you choose to include them. The Cafe Anglais is no longer first class, the Lion d'Or has been closed, Foyot's is in the Latin quarter and Marquery's is only middle class. The highest priced places are Durand's, Paillard's and the Cafe Voisin, and these are the most frequented. Each year the restaurant frequented by the "swells" changes. Two years ago it was Durand's, last year it was Paillard's and this year it is Voisin's.

Americans are generally disappointed in the appearance of these places because they are frequently small and by no means gorgeous in their equipments. They are all arranged in about the same way—a row of cushioned seats or divans running around the wall, with tables placed next to them. The guests nearly always ensconce themselves on the seats next to the wall and are served from the other side of the tables by the waiters. Occasionally, when the place is crowded, people will seat themselves on the outside, but ordinarily they are found on only one side of the table. As for the table linen, the china, the knives and forks, they are by no means as fine as we find in many of the American hotels and restaurants. The cooking, however, is hard to excel. The reason that the Paris restaurants obtain such high prices is owing to their peculiarity of getting what they call primeurs. Their Paris epicurean guests seem to want to eat things out of season. For example, they are fond of serving you peas in January. Then, they will give you pheasants and birdnest soup and other exotic dishes.

Here is a sample dinner and a very plain one for two at a Paris restaurant. They charge you, by the way, 50 centimes, or 10 cents, to sit down. Therefore for the two places, or converts, put down 1 franc; an aperitif, the substitute for our American cocktail, another franc; a bottle of ordinary white wine, 5 francs; a bottle of ordinary burgundy, 7 francs; a tureen of bouillon, another franc; a sole with normandy sauce, 8 francs; a duckling with turnips and cream, 15 francs; asparagus with a delicate sauce, 12 francs; ice cream tart, 5 francs; coffee, half a franc; liqueurs, 1 franc; tip, half a franc; total, about 60 francs, or about \$12.

With almost everything, much better, you find, than in America. They also cook many things in covered casseroles which are most appetizing. Their casseroles are earthenware, of the kind called casseroles, and by keeping them covered they can cook a chicken, an omelette which will make your mouth water. The average American chicken is baked in an oven—although the cook thinks she is roasting it when she is only baking it—and, as a rule, it is dry and tasteless and unfit to eat.

You can get a lunch, or what the French call a breakfast, at any of these restaurants, including a bottle of ordinary wine, butter, shrimps, eggs and mushrooms, chicken with artichoke hearts, strawberry tart, coffee and cheese for about 25 francs, say \$5. But all of these bills that I am giving you are the dinners and breakfasts ordered by people who are careful. The average American is apt to take things which are suggested to him by the waiter, and when he has eaten with his table companion say four dishes and finds that it costs \$10 apiece it makes him very tired.

If you will notice, I have put on the bills of fare above only ordinary wines. If you place yourself in the hands of the sommelier, or wine steward, and tell him you want something very good, he will bring you up an old cobwebby bottle of burgundy without any tag on it and will tell you that it is good. So it is. It will generally cost you more than champagne, and by the same token it is better than champagne. Americans soon find out the places where they have good burgundy and bordeaux, but they have to pay for them. I would advise these Americans always to trust in the sommelier rather than attempt to find things themselves from the wine list, because the wine list is meaningless. All it can tell you is vintage and prices, and sometimes not even that.—Paris Cor. San Francisco Argonaut.

Tarry de Windt, the Siberian traveler, took a number of woodcuts of the Andree polar balloon for distribution among the natives of northwestern Siberia. One day he noticed a Tchukhtsi studying one of the pictures intently and asked him what he would do if he saw it in the sky. "Shoot it," was the immediate reply.

By Canoe From Coast to Coast.

Mr. F. C. Nicholas recently described the goldfields of western Colombia for the geological section of the New York Academy of Sciences, and incidentally pointed out a route by which, in the wet season, a man might go in a canoe from the Atlantic to the Pacific across the northwestern corner of South America. The proposed route follows the river Atrato to the divide, which lies in a series of swamps, and then, by way of one or two smaller streams, reaches the river San Juan, which empties into the Pacific.

Way and His Cabinet Cautious as to Cuba.

NOT INTENT UPON INTERVENTION.

Not Talking of Throwing Relief into the Island at the Mouth of the Canal—Don't Have to, in Fact, Because Spain Is Not Objecting—What the Administration Really Intends—Morgan "Set on" His Reluctance Resolution.

Washington, May 15.—A mistaken impression has been formed as to the purpose of the administration regarding Cuba, and the idea prevails very generally that the president is about to cooperate with congress in steps looking to American intervention in the near future. Statements having that color are misleading. The aim and purpose of the administration is to afford relief to Americans who are in distress in Cuba, of whom there are many hundreds. Facts in possession of the department of state bearing on this phase of the matter have been laid before the senate committee on foreign relations, as stated in the dispatches, and the press has given a correct skeletonized report of the testimony, but the president has been careful in authorized statements that have gone out to refrain from saying anything, or permitting anything to be said, which could be construed, even remotely, as unfriendly to Spain.

Spain Acting Within Her Rights. The right of Spain to herd the inhabitants of the island in the cities in pursuance of a final policy for the suppression of the rebellion is not denied; that suffering should result from such a course is inevitable, and that Americans living in Cuba should be in distress in consequence is recognized as one of the misfortunes of war, but not necessarily as a legitimate excuse for armed intervention by this country. The beginning and the ending of the pending agitation, so far as it has White House cooperation, is to furnish succor to the subjects of the United States who have been made victims of the unfortunate conditions as they now exist in Cuba.

Assurances Given by De Lome. This move our government will not antagonize by Spain. On the assurances have been given by de Lome, speaking on behalf of the Madrid government, that such succor would be welcome and that representatives would be given assistance for the proper distribution of supplies sent from these shores, by reservation being that aid and it must not be afforded insurgents under cover of a distribution of charity to suffering Americans. The matter is fully understood between the representatives of the governments, and it does not follow that because the American administration is moving in the premises it is endorsing or giving countenance to belligerency or independence resolutions by congress.

Why Morgan Was Held Back. On the contrary, quite a different construction must be placed on the executive action which has resulted in hanging up the Morgan declaration. The passage of Morgan's resolutions, which seemed imminent several days ago, might, it was thought at the White House, embarrass the efforts that had been already started for the relief of Americans in Cuba. The senate foreign relations committee was therefore taken into executive confidence and action was postponed until the question could be considered in all its bearings. The urgency of relief may be presented so powerfully as to force into temporary retirement propositions likely to provoke irritation between Spain and the United States.

De Lome Confers with Day. A conference between Assistant Secretary Day and Senator Dupuy de Lome yesterday lasted for over an hour, and was confined entirely to a discussion of the extension of relief measures. No objection was made in behalf of the Spanish government to the supply of food, medicine and clothing to the distressed Americans in Cuba, but it was clearly understood that the relief is to be extended only to American citizens through agencies not yet decided upon, and not to the Cuban rebels. On this point it can be stated positively that it is the present idea of the administration that it will have fulfilled all its proper functions when it has cared for its own citizens.

MORGAN KNEW IT ALL THE TIME.

But Relief Measures Will Not Stop Him from Pressing Recognition. Washington, May 15.—The fact that the senate was not in session yesterday and that comparatively few senators were at the Capitol had a quieting effect on the situation in regard to Cuban affairs. There was still, however, much interest in the course that the matter may take on Monday. Morgan said that the message of the president, if it should apply only to relief measures in the way of food and clothing, would not cause him to deviate from his purpose of pressing his resolution for the recognition of state of war, as he had given notice to do before it was assumed that the president would send in such a message.

The friends of the Morgan resolution did not antagonize measures contemplating temporary relief, but they are disposed to accept such measures in face of a more general and far-reaching declaration. The opposition also probably will acquiesce in a resolution appropriating money to relieve immediate wants.

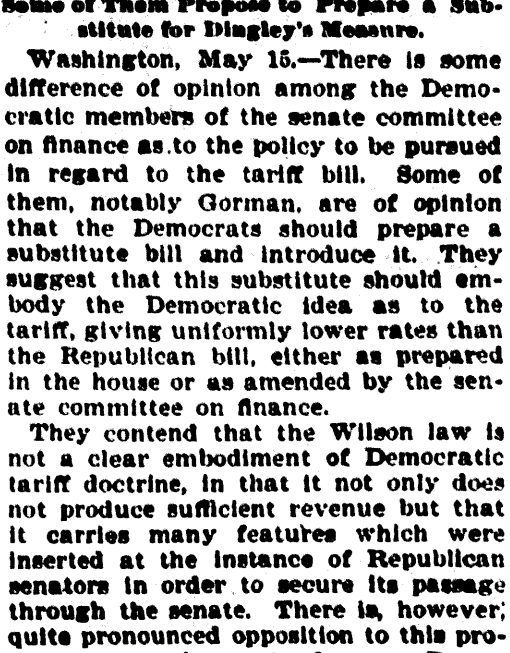

Hale, who is generally recognized as a leader of the opposition to all measures looking to a general declaration in the Cuban interest, is absent from the city, but White, who also opposes such measures as a rule, said that while there are objections to extending our charity such an extent he would be disposed to offer no opposition to such a measure. One of the pro-Cubans take the position that any supplies sent to Cuba would merely aid the Spanish cause, as they would practically amount to a contribution to Spain. Hence there is a possibility of opposition even to the proposed relief.

Morgan has no purpose of changing the form of his resolution in any respect. He was fully aware of the situation when he prepared the resolution, he said, "and therefore find in the recent publications no reason for altering my mind." The senate declined to accept the resolution.

Grand Jury returned verdict in case of Fred Monnick, who was drowned in the St. Joseph river while fishing off the south pier. Late yesterday afternoon the remains were positively identified at the undertaking rooms of J. O. Rowe in Benton Harbor. The body was brought to this city and taken to the home of the boy's mother on the Beach. The funeral was held this afternoon at 2 o'clock from the Lutheran church.

The Epworth League of the Methodist church, in celebration of its seventh anniversary, gave a reception last night in the church to the young people's societies of the other Christian denominations. Refreshments were served and the following program rendered: Duet, Miss Daggett, piano; Charles Russell, violin, and Willis Stephens, mandolin; recitation, Dorothy Wilder; recitation, Pearl Clark; piano solo, Miss Margaret Wilkinson; reading, Miss Merrill.

The street railway company is erecting the trolley wires on Front street and expects to have the extension completed to Elm street tonight.

Mrs. W. L. Holland, Miss Sadie Alley, Mrs. Merriman, Miss Mary Garfield and Miss Fannie Hanes gave a breakfast party to their friends this morning at 8 o'clock. The event is an innovation in St. Joseph society and gives promise of becoming quite popular. The party was given at the home of Mrs. Holland.

C. B. Potter, sr., has retired from the practice of law on account of failing health and a serious affection of the eyes. Mr. Potter has been one of the brightest lawyers connected with the Berrien county bar. He possessed in his day a wonderful legal mind and was retained in the most important cases in the history of the circuit court. His health of late years has not permitted him to actively engage in the practice of his profession, and his retirement is much regretted. His office will be occupied by C. B. Potter, jr., a son of the elder Mr. Potter. He is ambitious, has a broad knowledge of his profession and is assured of success.

Edward Badger and Mrs. Chauncey Spaulding were among the passengers by boat to Chicago last night.

ROBERT BURNS.

The Poet's First Love and the Verse in Which He Praised Her.

Robert Burns, the Scottish poet, was born at Mount Oliphant, Jan. 25, 1759, near Ayr, in a clay built cottage, reared by his father's own hands. When a lad of 18, the family moved to Lochlea. His first three or four years at Lochlea were still with the poet times of innocence, and "his conduct was governed by the strictest rules of virtue and modesty." At last he set his affections on a young woman named Ellison Begbie, the daughter of a small farmer, and asked her to be his wife, but he could not prevail on her to marry him, and this disappointment had a malign influence over the poet. Long afterward, when he had seen much of the world, Burns spoke of this girl as, of all those on whom he ever fixed his fickle affections, the one most likely to have made a pleasant partner for life. It was to her he addressed the pure and beautiful love lyric "Mary Morison," and in these lines the lyric genius of Burns was for the first time undeniably revealed:

Yestreen when to the trembling string
The dance gaed through the lighted ha',
To thee my fancy took its wing.
I sat, but neither heard nor saw,
Though this was fair and that was braw
And yon the toast of a' the town.
I aighed and said among them a',
"Ye are nae Mary Morison."

Oh, Mary, canst thou wreck his peace
Who for thy sake would gladly die?
Or canst thou break that heart of his
Whose only fault is loving thee?
If love for love thou wilt not gie,
At least be pity to me shown.
A thought ungentle canna be
The thought of Mary Morison.

THE GOLD DEMOCRAT VOTE.

Silver Men Claim Its Growth is a
Mistake.

J. J. Miller, one of the leading sil-
ver men in the city, objects to the
statement that the vote of the gold
democrats is growing in this district.

Mr. Miller says the large vote that
ticket received was because many
democratic silver men voted carelessly,
and forgetting all about the "national
democracy" they voted under the
democratic flag instead of under the
silver dollar. Two of the many in-
stances of this kind are the meat cut-
ter employed by Mr. Miller and the
father of ex-Postmaster Jarvis.

CIRCUIT COURT ADJOURNS.

Next Monday the May Term Will
Begin.

The circuit court adjourned last
night without concluding the taking of
proofs in the Weber-Hall case. The
defendant Charles W. Hall was on the
witness stand a large share of yester-
day and among other startling features
of his testimony was the statement that
he had charged the complainant \$107
for advising him regarding the danger
of uttering forged papers.

The suit, it is remembered, is brought
to secure the restoration to the com-
plainant of two pieces of real estate
valued at \$2,200 upon each of which is
a mortgage of \$500, the property hav-
ing been deeded to Hall by Weber as
security for a loan of \$50 for ten days,
the tenth day falling on Sunday. Web-
er appeared the Monday following with
the \$50 and the defendant told him he
did not owe him anything, nor would
he surrender the deed, claiming that
his right to the property was absolute.
The circuit court will convene again
next Monday which will be the opening
day of the May term. One day's session
will be held and an adjournment will
be again taken until Tuesday, May 25.

HELP, CRIED THE MAN.

NOT WELL ENOUGH TO WORK.
YET NOT QUITE ILL
ENOUGH TO QUIT.

Many Another Man Has Doubtless Felt
as Did Humphrey Slater, of Detroit,
Who Suffered Till He Took
Dodd's Kidney Pills.

DETROIT, Mich., May 15—Another
man stands up to be counted as one of
many here in Detroit, who have been
cured of pains in the back and kidney
trouble by the use of DODD'S KID-
NEY PILLS.

He is Mr. Humphrey M. Slater, of
the firm of Cox & Slater, carriage mak-
ers, at 914 Grand River Avenue. Mr.
Slater, like many others, was not well
enough to work, yet not quite ill
enough to quit. He struggled on,
hoping that he would feel better, yet
knowing that he must have help as
well as hope. He took DODD'S KID-
NEY PILLS and they did the busi-
ness. They relieved his pains, made
him feel like a new man and put him
on the roster of health again.

DODD'S MEDICINE CO.:
Gentlemen:—I started using
DODD'S KIDNEY PILLS about a
week ago, and am pleased to state
that I feel much benefited and am
now able to attend to my work. I
suffered with severe pains in my
back, caused by kidney trouble,
and feel so much improved that I
am sure a continuance of the pills
will cure me, and I am thankful to
have found out the merits of your
remedy.

H. SLATER,
907 Fifteenth St. Detroit, Mich.

Devonshire Terrace.
Dickens was 27 years old when, in
1839, he moved from Doughty street to
Devonshire terrace. George du Maurier
lived for some years in 1 Devonshire
terrace.

In this now celebrated house Dickens
wrote no fewer than ten of his books:
"The Old Curiosity Shop," "Barnaby
Rudge," "The Christmas Carol,"
"American Notes," "Martin Chuzzle-
wit," "The Hanted Man," "The Bat-
tle of Life," "Domby and Son," "The
Cricket on the Hearth" and "David
Copperfield." Devonshire terrace was
situated at the corner of the Marylebone
road and used to be called the smallest
terrace in London.

Atlantic Liners.
There are fully 1,000 tons of piping
of various kinds, it is said, in the aver-
age Atlantic liner. The condensers will
pump up at least 50,000,000 tons of cool
water a day. The furnaces will consume
no less than 7,500,000 cubic feet of air
an hour. The boiler tubes, if placed in
a straight line, would stretch nearly ten
miles and the condenser tubes more
than 24 miles.

Losting.
She had wandered into a department
store.

"I want some favors for a garden,"
she explained to the clerk.
"Garden or house?" asked politely
the clerk.

ENCOURAGE HIM.

J. A. Simon Will Begin on the Opera
House Scheme Monday.

J. A. Simon has received assurance
of being able to procure the city lot on
reasonable terms and beginning Mon-
day will circulate a paper for subscrip-
tions for shares in a stock company
which will be organized to build a new
theater.

Mr. Simon should receive the en-
couragement of every citizen. He is
disposed to donate his time in the
furtherance of an enterprise, the con-
summation of which the city is greatly
interested in, and no better opportu-
nity will ever come to Benton Harbor
to secure a play house without which
no city is complete.

HATES GOVERNOR PINGREE.

Dowagiac Man Compares the Ex-
ecutive to Pingree.

Fred. E. Lee of Dowagiac thus ex-
pressed his opinion of Governor Pin-
gree at the banquet of stove makers in
Detroit: "There isn't a man present
who has not heard of Pingree potato
patches. We haven't heard of any-
thing else here in Michigan, but did
any of you ever see any of the potatoes?
I have been all over the state, but I
cannot remember observing any good
that has been accomplished. Pingree
has done more to place this magni-
ficent lake state in ill-repute than any
dozen men could do. If he keeps on,
Michigan will line up with Kansas, for
Pingree is worse than Peffer, who
killed that state."

Mr. Lee is not sympathetic with the
governor's idea of taxation. Mr. Lee
is manager of the large Beckwith es-
tates which has received a partial ex-
emption of its property in Dowagiac
from taxation for a number of years.

GHOST STORIES.

They Were Related at the High
School Reception.

Misses Southgate and Gibson enter-
tained the rest of the high school fa-
culty and the seniors at the residence
of Captain Rounds on Britain avenue
last evening.

While all were gathering the time
was spent in relating ghost stories of
which one of the hostesses seems to
have had a great number of personal
experiences. Names of kings, queens
and other persons of high rank were
pinned on the backs of the visitors and
they were compelled to search for their
partners for refreshments. This was
indeed a task for Henry VIII whose six
wives proved a source of great trouble
to that royal personage. Strawberries
and ice cream were served.

The remainder of the evening was
spent in guessing quotations and writ-
ing telegraph messages from a certain
number of letters decided upon. Short-
ly after eleven the guest took their de-
parture only regretting that they could
not come to school another year that
they might be so hospitably entertain-
ed again.

The senior class will be the largest
that has ever been graduated from any
school in the city. Following is a list
of the twenty seven members:

Katherine Allen, Lois Basset, Orlow
Buckley, Clayton Beckwith, Walter
Banyon, Laura Durkee, Roy Denning,
Charles Durr, Lela French, Alice
Gilson, Katherine Gross, Florence
Hawkins, Belle Hemingway, Ray Hem-
ingway, Otis Judson, Cassie McCart-
ney, Laura LaMunion, Albert Parsal,
Myrtle Ruth, John Reese, Edith Storm,
Margaret Storm, Irven Spencer, Lillian
Williamson, Carrie Westcott and
Sarah Van Camp.

Notice to Taxpayers—Board of Review.

Notice is hereby given that the board
of equalization and review of the city
of Benton Harbor will meet in annual
session at the city hall on Monday,
May 17, 1897, and on the three days
following, said board will be in session
from the hour of 9 o'clock a. m. until
4 o'clock p. m., of each day, to review
the general assessment rolls of the sev-
eral wards of the city for the purpose
of correcting any errors that may ap-
pear therein as to valuations of prop-
erty assessed, to add thereto any tax-
able property that may have been
omitted and to strike therefrom any
property wrongfully placed thereon,
etc. All persons desiring a hearing on
any matters pertaining to said assess-
ment rolls are notified to appear before
said board at the time and place above
mentioned.

The Science of the Morning Fast.

Dr. E. H. Dewey says that the heavy
morning breakfast which is universal
in America is all a mistake. The hun-
ger one feels is abnormal and is simply
the acquired result of a lifelong untime-
ly meal. More than this, it is often dis-
ease undergoing evolution, and many
complaints are cured simply by not tak-
ing anything beyond a small cup of tea
or coffee, and sometimes not even that,
until 11 or 12 o'clock. The experience
of hundreds of persons proves that even
the severest manual labor can be per-
formed for several hours "on an empty
stomach" and with more ease, energy
and satisfaction than ever is possible
after an early morning meal, and that
it can be done even up to high noon
without mental exhaustion or incon-
venience. The danger of indigestion
is avoided and the power of the diges-
tive organs is increased.

HAD there been a republican club in
Benton Harbor at the time of Mr. Jar-
vis' letter to Senator Burrows and had
Mr. Jarvis stated the time and the
place of the "national honor" banquet,
Dr. Rockwell would find it an easier
job to prove that the letter was sent to
the senator and that in February 1896
the former postmaster was really a
"hard money" democrat.

THE Ralli cabinet has managed to
get Greece into as bad a predicament
as ever befell a nation. It has com-
promised itself with offers of conces-
sions to Turkey without getting as
much as a promise of an armistice in re-
turn. This is generally what happens
when statesmen are driven to the rear
and matters of state are left in the
hands of inexperienced demagogues.
The eastern situation is more serious
than it was at the outbreak of the war.

AN Illinois country paper suggests
that tramps be sent to Greece and used
as targets for the Turks. The army
of Allah might refuse to waste its am-
munition and then the outlay in trans-
portation would be poorly spent. The
best method of dealing with tramps is
to rearrange the industrial condition so
that work may be had by everyone and a
law could be formed which would make
everybody work. The philosopher who
can bring about such a condition has
not yet appeared.

Chief Donoghue Also Benefited by Paine's
Celery Compound.

WASHINGTON, May 14—In all the
departments at Washington Paine's
celery compound has become the office
expression for an ideal invigorator
when one is "run down" by overwork,
confining duties, or any of the many
causes that result in ill health.

Here is what a prominent official in
the Department of the Interior says of
Paine's celery compound:

Department of the Interior,
General Land Office.

It affords me much pleasure to state
that Paine's celery compound has been
to me an excellent spring remedy, and
particularly beneficial to the nervous
system and digestive organs. I cordi-
ally commend its use.

M. F. DONOGHUE,
Chief of Contest Division.

Among the thousands of voluntary
letters of acknowledgement for benefit
derived from Paine's celery compound,
there have already been published in
the Washington papers testimonials
from men representing every depart-
ment of the national government—not
only from many of the best known con-
gressmen, but from hosts of hard-work-
ing clerks unknown outside of their
immediate circle of friends. Some of
those who have voluntarily indorsed
Paine's celery compound are:

Congressman Powers of Vermont.
Congressman Meredith of Virginia.
Congressman Bell of Colorado.
Congressman Neill of Arkansas.
Congressman Wilber of New York.

Congressman Grout of Vermont.
Congressman Otay of Virginia.
Mr. Carlisle's Private Secretary.
Hon. William R. Smith, Supt. U. S. Botanical
Garden.

Maj.-Gen. Birney.
Commodore Howell.
Lieut. C. A. McAllister.
Hon. F. H. Stickney, U. S. Navy.

Paine's celery compound builds up
the "run down" health in a sure, unin-
terrupted, steadfast fashion from which
there can be no relapse. It wipes out
unhealthy humors from the blood,
opens up the skin and makes it do its
full share in purifying the blood. This
cleansing the blood through and
through is one of the unfailing accom-
plishments of Paine's celery compound.

From a life-long contact with the
many forms of nervous debility and im-
pure blood, Prof. Edward E. Phelps,
M. D., LL. D., of the Dartmouth Medi-
cal school, was led to the discovery of
Paine's celery compound as the crown-
ing achievement of an extraordinarily
active and successful professional life.
No acceptable substitute for Paine's
celery compound exists. Each year
further accumulates evidence of the un-
equalled capacity of this greatest of all
known remedies for restoring health
and vigor.

Now that spring has come, nerves,
blood and vital organs cannot remain
clogged by poisonous humors nor starved
by overwork and lack of sleep with-
out great risk. Paine's celery com-
pound is the most intelligent, wisest
means anyone can employ for driving
out disease and restoring a healthy
tone to the entire system.

COLOMA Courier: Unwarned by Co-
-loma's experience with the Chicago

-Centaur Equestrian club of Chicago in
-1896, Benton Harbor is considering the
-proposition of having the second reg-
-iment of the Michigan national guards
-there as a Fourth of July attraction
-this year. The regiment numbers four
-hundred tin horn fighting men, and
-local papers estimates its followers at
-something near fifteen thousand men,
-women and children.

THE Coloma Courier intimates that
-Champion George Calderwood of this
-city did not care to fight the Grand
-Haven Johnston at the recent "mill"
-in Coloma. In regard to the matter
-Mr. Calderwood says: "The Courier
-has learned from many reliable sources
-aside from the manager of the opera
-house, that George Calderwood knew
-that his name was to be used in a glove
-exhibition with A. J. Johnston and
-promised to be in Coloma Thursday
-evening. As far as the cash was con-
-cerned Mr. Calderwood had a chance

-cash was in sight, so was Johnston, but
-Calderwood was not."

THE L. O. T. M. MEET

West Michigan Train.
Edward Coates of Rochester, N. Y.,
was run down by a West Michigan
freight train two miles south of St.
Joseph this morning and instantly
killed. He was tramping and expected
to stop in St. Joseph until the berry
season opened when he would seek
a position gathering the fruit.

It was about 8 o'clock when the ac-
cident occurred. Coates and a companion
named James Hurlbert were walking
over the ties. They had covered the
entire distance from Chicago on foot.
There is a sharp curve in the West
Michigan tracks at what is locally
known as the "Summit," two miles
south of St. Joseph, and when the men
reached this point they were warned of
an approaching train by a shrill shriek
from the locomotive whistle.

Owing to the curve in the tracks the
engineer did not see the men until he
was close upon them. The first blast
of the whistle caused Hurlbert to jump
from the track, but Coates, who was
somewhat deaf, remained. His com-
panion tried to warn him of the ap-
proaching danger, but he did not dis-
cover it until too late. He was leap-
ing from the track when the engine
struck him, crushing his skull into
fragments and bruising his body in
several places.

The train was No. 33 and the engine
No. 172. As soon as possible the train
was stopped and the dead man lifted to
the caboose and brought to the station.

Acting in the capacity of coroner
Justice St. Clair had a jury impaneled
composed of Amos Bowen, William
Preston, Richard Metcalf, George
Topping, Charles Shaffer and M. O.
Hulmer. The inquest was held at the
station. The engineer and fireman and
the deadman's friend were sworn as
witnesses and facts as related above
were developed. Death was attrib-
uted to accidental causes.

The body was conveyed to Weckler's
mortuary and unless word is received
from friends of the deceased at Roch-
ester N. Y., whom the authorities are
now trying to reach, the body will be
buried here tomorrow at the expense
of the county. Coates was 45 years old.

Good

Blood is essential to health. Every nook
and corner of the system is reached
by the blood, and on its quality the
condition of every organ depends. Good
blood means strong nerves, good diges-
tion, robust health. Impure blood means
scrofula, dyspepsia, rheumatism, catarrh
or other diseases. The surest way to
have good blood is to take Hood's

Blood

Sarsaparilla. This medicine purifies,
vitalizes, and enriches the blood, and
sends the elements of health and strength
to every nerve, organ and tissue. It creates
a good appetite, gives refreshing sleep
and cures that tired feeling. It is because
of its great power to purify the blood that

From

Hood's Sarsaparilla has accomplished so
many wonderful cures. It makes the
blood pure, drives out the germs of dis-
ease. Thousands today enjoy good health

THE NEW YORK CITY...
THE NEW YORK CITY...
THE NEW YORK CITY...

There are plenty of places in Paris where you can get a dinner cheaper than the bouillions Duval, for example. These restaurants are sprinkled all over Paris, and they give you plain food very well cooked at a reasonable figure. But the average American generally goes to the small places, which are about 12 in number. There is the Cafe de Paris, Chas's, Chevallard's, Durand's, Jo's, the Restaurant Larue, the Tour d'Argent, Maire's, Paillard's, the Maison Doree, the Cafe Voisin and the Restaurant Lucas, together with the Cafe de la Paix, the Lion d'Or, Foyot's and Maqueroy's. If you choose to include these, the Cafe Anglais is no longer the class, the Lion d'Or has been closed, and the Cafe Voisin is in the Latin quarter and Maqueroy's is only middle class. The most expensive places are Durand's, Paillard's and the Cafe Voisin, and these are the most frequented. Each year the restaurant frequented by the "swells" changes. Two years ago it was Durand's, last year it was Paillard's and this year it is Voisin's.

Americans are generally disappointed in the appearance of these places because they are frequently small and by no means gorgeous in their equipments. They are all arranged in about the same way—a row of cushioned seats or divans running around the wall, with tables placed next to them. The guests usually always ensconce themselves on the seats next to the wall and are served from the other side of the tables by the waiters. Occasionally, when the place is crowded, people will seat themselves at the outside, but ordinarily they are seated on only one side of the table. As for the table linen, the china, the knives and forks, they are by no means as fine as we find in many of the American hotels and restaurants. The cooking, however, is hard to excel. The reason that the Paris restaurants obtain such high prices is owing to their peculiarity of getting what they call primeurs. Their Paris epicurean guests seem to insist on eating things out of season. For example, they are fond of serving you oysters in January. Then, they will give you pheasants and birdnest soup and other exotic dishes.

Here is a sample dinner and a very good one for two at a Paris restaurant. They charge you, by the way, 50 centimes, or 10 cents, to sit down. There are two places, or covers, put down for 1 franc; an aperitif, the substance for our American cocktail, another franc; a bottle of ordinary white wine, 1 franc; a bottle of ordinary burgundy, 1 franc; a tureen of bouillion, another franc; a sole with normandy sauce, 8 francs; a duckling with turnips and peas, 15 francs; asparagus with a delicate sauce, 12 francs; ice cream tart, 1 franc; coffee, half a franc; liqueurs, 1 franc; tip, half a franc; total, about 50 francs, or about \$12.

THE NEW YORK CITY...

You can get a lunch, or what the French call a breakfast, at any of these restaurants, including a bottle of ordinary wine, butter, shrimp, eggs and mushrooms, chicken with artichoke hearts, strawberry tart, coffee and cheese for about 35 francs, say \$5. But all of these bills that I am giving you are the dinners and breakfasts ordered by people who are careful. The average American is apt to take things which are suggested to him by the waiter, and when he has eaten with his table companion say four dishes and finds that it costs \$10 apiece it makes him very tired. If you will notice, I have put on the bills of fare above only ordinary wines. If you place yourself in the hands of the sommelier, or wine steward, and tell him you want something very good, he will bring you up an old cobwebby bottle of burgundy without any tag on it and will tell you that it is good. So it is. It will generally cost you more than champagne, and by the same token it is better than champagne. Americans soon find out the places where they have good burgundy and bordeaux, but they have to pay for them. I would advise these Americans always to trust in the sommelier rather than attempt to find things themselves from the wine list, because the wine list is meaningless. All it can tell you is vintage and prices, and sometimes not even that.—Paris Cor. San Francisco Argonaut.

Enlightened.
Tarry de Windt, the Siberian traveler, took a number of woodcuts of the Andree polar balloon for distribution among the natives of northwestern Siberia. One day he noticed a Tchuktohi studying one of the pictures intently and asked him what he would do if he saw it in the sky. "Shoot it," was the immediate reply.

By Canoe From Coast to Coast.
Mr. F. C. Nicholas recently described the goldfields of western Colombia for the geological section of the New York Academy of Sciences, and incidentally pointed out a route by which, in the wet season, a man might go in a canoe from the Atlantic to the Pacific across the northwestern corner of South America. The proposed route follows the river Atrato to the divide, which lies in a series of swamps, and then, by way of one or two smaller streams, reaches the river San Juan, which empties into the Pacific.

THE MORGAN RESOLUTION

Washington, May 15.—There is some difference of opinion among the Democratic members of the senate committee on finance as to the policy to be pursued in regard to the tariff bill. Some of them, notably Gorman, are of opinion that the Democrats should prepare a substitute bill and introduce it. They suggest that this substitute should embody the Democratic idea as to the tariff, giving uniformly lower rates than the Republican bill, either as prepared in the house or as amended by the senate committee on finance.

They contend that the Wilson law is not a clear embodiment of Democratic tariff doctrine, in that it not only does not produce sufficient revenue but that it carries many features which were inserted at the instance of Republican senators in order to secure its passage through the senate. There is, however, quite pronounced opposition to this programme on the part of many Democratic senators, including several members of the committee on finance. They take the position that the safest course for the party is to stand by the Wilson bill, which, while it is not perfect, is still a Democratic measure.

Vanderlip to Succeed Scott Wilke.
Washington, May 15.—It was officially announced yesterday that the nomination of Frank A. Vanderlip, of Chicago, as assistant secretary of the treasury to succeed Scott Wilke, would be sent to the senate when it reconvened next Monday. Vanderlip at present is serving as private secretary to the secretary of the treasury and he was Gage's first appointment on assuming his office on March 4. He was born at Aurora, Ill., and is 32 years of age.

The Case of Rev. Mr. Knapp.
Washington, May 15.—Senator Mills has received a letter from Minister Terrell, who says that all the talk of the Turks expelling Missionary Knapp from Turkey is untrue. Terrell says that Knapp was frightened into leaving his post at Bitlis, near the Russian border. He was told that the Turks could not protect him against the Kurds. The Armenian Christians accused him of exciting revolution.

TEXAS IS MAKING A RECORD.
Three More Negroes Hanged in That State by the Mob Monarch.

Rosebud, May 15.—Thursday night three negroes—Dave Cotton, Henry Williams and Sabe Stewart—were taken from the officers of the law and hanged. They had been confined in the jail several days on a charge of attempted rape, their intended victim being a daughter of William Coates, white. Williams made a confession. Deputy Constable Wilson had put a strong guard around the jail. Everything was quiet until about 12 o'clock, when a number of men heavily disguised rode up to the jail and demanded the prisoners.

The guards refused to deliver them and the crowd retired, saying they would blow up the jail with dynamite or have the prisoners. Immediately the officers and guards summoned a bus and took the prisoners, leaving by a roundabout route to Martin, hoping to reach the Post Oaks in time to elude the mob. When about three miles east of here they were overtaken by about a thousand masked men, who overpowered them, took the prisoners and hanged them to a tree.

Scores on the Ball Field.
Chicago, May 15.—League scores on the diamond yesterday were: At Louisville—Philadelphia 7, Louisville 1; at Cincinnati—New York 5, Cincinnati 6; at Pittsburgh—Washington 1, Pittsburgh 7; at St. Louis—Baltimore 11, St. Louis 7; at Cleveland and Chicago—Games postponed.

Western League: At Kansas City—Milwaukee 9, Kansas City 8; at Minneapolis—St. Paul 1, Minneapolis 14; at Detroit and Indianapolis—Rain.

Western Association: At Cedar Rapids—Des Moines 1, Cedar Rapids 9; at Dubuque—Burlington 10, Dubuque 16; at Peoria—St. Joseph 13, Peoria 9; at Rockford—Quincy 5, Rockford 4.

Michigan Solons Still at Work.

Lansing, Mich., May 15.—Telegraph companies came in for attention in the house, a favorable report being made on the bill requiring them to exchange business in Michigan. The senate has hung up the bills repealing the Michigan Central's special charter and increasing the specific taxes of railroad companies nearly two-fold, and they are likely to fail. The bill repealing the law taxing real estate mortgages is dead, and so are the bills placing further restrictions on the liquor traffic.

Murder in a Nashville Street.

Nashville, Tenn., May 15.—Within a few steps of the most frequented street in the city yesterday F. L. Cartwright, a gambler, shot and killed T. E. Boyle, of Atlanta, Tex. The men had an altercation on Cherry street, and while contending entered a side alley. Only one shot was fired. A pistol, which it is claimed was Boyle's, was picked up. Cartwright is in jail, though no warrant has been sworn out. It is claimed that the shooting was done in self-defense.

Will Be a War on Steel Prices.

Pittsburg, May 15.—The disruption of the steel beam pool, the last vestige of combinations which held the more powerful producers together, is regarded by local brokers as likely to precipitate a rate war along all lines, such as exists at present in the rail and billet branches of the business. It is thought that the price of beams, etc., will go below 1 cent per pound.

Quickest Nashville Wine a Bonus.

Bridgport, Conn., May 15.—The United States gunboat Nashville covered the longest mile course on her of about two miles in three hours, thirty-five minutes and twenty-nine seconds, averaging 14 knots and winning a bonus of about \$5,000 for her builders.

It is thought that the price of beams, etc., will go below 1 cent per pound.

Clothing Buyers Coming in Crowds

OUR ANSWER Yes, our immense trade has been built up by people who have bought one suit to test it and having been convinced have become regular customers. All we ask is that you give us a trial and we shall feel assured of future patronage.

A mans elegant business suit for \$3.50
A mans all wool black Clay suit, \$7.00

A FEW WORDS TO THOSE WHO ARE UNDECIDED

You have perhaps traded with one clothier for many years, and have just begun to realize that while everything else has become cheaper, you are still paying WAR PRICES for your clothing. The thoughtful man will ask himself why? We respectfully ask you the same question, why? You have been reading our advertisements for a long time, with the result that you are now asking yourself: Can the White House Store really save me 25 per cent on a suit.

A mans' all wool pants for 98c
A boys school suit for 10c
A mans' mackintosh for \$2.00

ROBERT BURNS.

The Poet's First Love and the Verses in Which He Praised Her.

Robert Burns, the Scottish poet, was born at Mount Oliphant, Jan. 25, 1759, near Ayr, in a clay built cottage, reared by his father's own hands. When a lad of 18, the family moved to Lochlea. His first three or four years at Lochlea were still with the poet times of innocence, and "his conduct was governed by the strictest rules of virtue and mod-

city." At last he set his affections on a young woman named Ellison Begbie, the daughter of a small farmer, and asked her to be his wife, but he could not prevail on her to marry him, and this disappointment had a malign influ-

ence over the poet. Long afterward, when he had seen much of the world, Burns spoke of this girl as, of all those on whom he ever fixed his fickle affection, the one most likely to have made a pleasant partner for life. It was to her he addressed the pure and beautiful love lyrics, "Auld Mary, Mother," and "An' the

lyric **Mary Morrison**, and in these lines the lyric genius of Burns was for the first time undeniably revealed:

Yastreen when to the trembling string
The dance gied through the lighted ha',
To thee my fancy took its wing.
I sat, but neither heard nor saw,
Though this was fair and that was braw
And yon the toast of a' the town.
I sighed and said among them a',
"Ye are nae Mary Morrison."

Oh, Mary, canst thou wreck his peace
Who for thy sake would gladly die?
Or canst thou break that heart of his

Whose only tears is loving thee?
 If love for love thou wilt not give,
 At least be pity to me shown.
 A thought, ungentle cannot be
 The thought of Mary Morison.

Expert Fitter for the
Chicago Corset Co.

Will be in attendance at our Corset Department for the purpose of fitting the

Kabo Corsets

This is an opportunity not to be missed, for the chance seldom occurs to see a standard Corset at the reasonable price of \$1.35, and at the same time be fitted by fitting that it is exactly correct in fit, length and style.

Our line of these celebrated Corsets will be found to embrace every successful design in such goods—high busts, low busts, long, medium and short waists, white, flesh and black, and at the average price of \$1.35.

To ladies desiring goods of higher cost we will submit three or four styles of KABO CORSETS, ranging in price from \$1.75 to \$2.75, aimed at all varieties of figure, and so splendid in design, finish and shape as to be out of the class of competition at the prices asked.

Remember, she will remain but one week, so make it a point to visit our department during her stay, as the proper fit and hang of a gown depends altogether on the Corset, and to buy a Corset without having it fitted means misfit.

THE HISTORY OF THE SPICER BUTCHERY.

Set the History of the Spicer Butchery. A story of things that happened will tell you more than any other story. In the Spicer family Butchery, one by one of the best butchers—New Mexico Lawlessness Butchery.

Klamath, A. T., May 17.—Ahvute, the Plute Indian who has in the last three days murdered no less than ten white men, is dead. He met his fate at the hands of members of his own tribe, who were compelled by the miners in Eldorado Canon to trail the murderer to death, the penalty for their failure to do so being fixed at the annihilation of every Plute the miners could reach. Eight years ago a brother of Ahvute killed a mail rider. The whites demanded that the murderer be killed, and Ahvute was ordered by the tribe to kill him and bring back convincing proof that he had executed the order. He brought in one toe and a part of an ear, but the whites said he must bring better proof. Two days afterward he brought the head of his brother. Since that time Ahvute has been morose and sullen and lived apart from the tribe.

West Out to Get Revenge. Four days ago he took a rifle and killed Lars Frahm and Ben Jones, teamsters; Christian Neilson and Chas. Monaghan, miners; Judge J. M. Morton, assayer and millman, known all over the coast; John Powers and W. Connolly, well-to-do mine owners, and three other men, names unknown. The killings were all cold-blooded butcheries. The miners congregated in Eldorado Canon and told the Plutes that if they did not bring in or kill Ahvute they would kill every Plute they could reach. Six Plutes immediately took the trail and followed it to the places where his victims were killed. From side to side of the Colorado river went Ahvute on his pilgrimage of murder.

By the Way, Where Was the Law? The Indians followed him down the river, found where he had made his last landing and trailed him ten miles up the canon into the mountains, where they crept up and shot him as he was going over the range. An Indian went to the river and signaled to John Appel, who was going down the stream in a boat with the body of Monaghan, to come ashore. He tied up his boat and went with the Indian and viewed the body of Ahvute. The board of supervisors of Mojave county, A. T., offered a reward of \$250 for Ahvute and Mousse, who murdered Davis and Sterns last February.

Perhaps We'll Have Another Indian War. Telephone advices from White Hills, fifty miles north, state that fifteen armed Plute Indians came into town Saturday evening and made threats that if the whites molested them they would do some killing. The deputy sheriff attempted to disarm them, but got only one gun. Three Indians were placed under arrest and the others fled from town. It is feared that they will kill many men who are in the hills unarmed and a posse may go after them.

STORY OF THE SPICER BUTCHERY.

Told by One of the Indian Conspirators Who Did the Deed.

Bismarck, N. D., May 17.—The preliminary hearing of the five Sioux Indians who murdered the Spicer family at Winona, N. D., in February last has been completed at Williamsport, Emmets county. Holy Track, one of the accused, took the witness stand, and told the terrible story of the crime, implicating Black Hawk and Cadotte, the two half-breeds, and Standing Bear, Defender and himself, full-blooded Sioux. Holy Track said that last December Black Hawk, Cadotte, Defender and himself stole and killed altogether nine head of cattle and always traded some for whisky to Caldwell.

Finally Black Hawk suggested that they kill some white people and get money, planning to kill a family below Winona, but there were too many men there, and they were afraid. Black Hawk then suggested the Spicer family and set the day for the murder, but it was very stormy and Black Hawk postponed the crime. But Black Hawk had not been dividing the cattle money fairly, and Holy Track wanted to act at once. The others agreed and he got Standing Bear to help.

He continued: "On Wednesday we killed them all. I first shot Mr. Spicer and Standing Bear pounded him with a shovel, and then Defender stabbed him as he fell with a pitchfork. I then went and shot Mrs. Spicer and stabbed her with a pitchfork, and Defender hit her with an ax. Cadotte attacked Mrs. Rouse, but she hit him with something and knocked him senseless. Then she went into another room and got a hoe. I went to kill her then with the butt end of the gun, but she was quick and hit me with the hoe. Again I went at her, but maybe she would have killed me with it if it had not caught in the stovepipe wire.

"I knocked her onto a lounge and she laid there as I thought dead, but Cadotte, who had come to, said not; so I finished her with an ax. Defender meantime killed the two babies, Standing Bear killed old Mrs. Waldron with a club as she rocked in her chair. We got altogether about \$5 in money besides the clothes and jewelry. There was no outraging of women. The doctor was wrong about that."

Lawless Outbreaks Are Common.

Washington, May 17.—The war department has been informed that there has been outbreak of lawlessness in the western portion of New Mexico, and that the respected citizens there are terrified by threats from a lawless element. The acting secretary decided to in to present state the case and report regarding the action of the war department.

General Act of Congress. The House Committee on Education and Labor will report the bill to amend the act of March 3, 1879, which provides for the payment of the salaries of the members of the House of Representatives.

Michigan Men Get a Model. Washington, May 17.—A medal authorized by special act of congress has been sent by Secretary Gage to Daniel E. Lynn, of Port Huron, Mich., for gallantry in volunteering to attempt the rescue of the crew of the schooner William Shupe, which went ashore at Point of Barques May 17, 1884. Three men went with him and were drowned, and he was saved with great difficulty and danger.

Sugar Beet Seed Exhausted. Washington, May 17.—The sugar beet seed which the agricultural department has been distributing is practically exhausted. The beets grown from the seed will be analyzed and the machine matter determined to ascertain where beets can be profitably grown for the production of sugar.

May Be No Cuban Message. Washington, May 17.—President McKinley has not yet decided whether he will send a message to congress on the Cuban situation. He still has the matter under consideration and will not finally determine what he will do until today some time.

HAS A BIG SCHEME ON HAND.

Syndicate Which Will Lend Money to Farmers at Very Low Rates.

New York, May 17.—Congress will be asked within two weeks to grant a charter to a financial institution which expects to exceed in comprehensiveness and importance the famous Credit Foncier, of France, according to The Press. Its prime purpose is to lend money to the farmers, especially of the west and south, at a rate almost half that they are now paying. As projected it would be the greatest financial institution in the world. Its capital would be \$100,000,000. It may, under the charter as drawn, do a mortgage and loan business of twenty times that, or \$2,000,000,000.

The saving of interest to borrowers will be \$100,000,000 a year. It is stated that among the men in the syndicate are James B. Forgan, first vice president of the First National bank, of Chicago, who since Lyman J. Gage has been secretary of the treasury has been the head of that bank; J. Edward Simmons, president of the Fourth National bank; George G. Williams, president of the Chemical National bank; A. Barton Hepburn, who was comptroller of the treasury under Harrison and who is president of the Third National bank; Abner McKinley, brother of President McKinley; Conrad N. Jordan and Maurice L. Muhleman, assistant and deputy assistant United States treasurer respectively at New York, and possibly Frederick D. Tappen, president of the Gallatin National bank.

PRESBYTERIANS AT WINONA.

Assembly Meets Next Thursday—Men Who Would Wield the Gavel.

Philadelphia, May 17.—The 100th assembly of the Presbyterian church in the United States will meet at Winona assembly grounds, Eagle Lake, Kosciusko county, Ind., on May 20, 1897, and will probably continue in session until May 31. The assembly will be composed of about 600 delegates, one-half of them ministers and the other half ruling elders. The 100th general assembly will be opened at 11 o'clock a. m. on May 20 with a sermon by the retiring moderator, Rev. John L. Withrow, D. D., pastor of the Third Presbyterian church, Chicago.

Among the delegates are found ex-President Harrison, John Wanamaker, and other able and influential laymen. With regard to the moderatorship of this assembly, it is stated that the candidates for the office thus far announced are Rev. Henry C. Minton, D. D., of San Francisco; Rev. Robert F. Sample, D. D., of New York; Rev. Sheldon Jackson and Mr. John Wanamaker, of Philadelphia. A number of gentlemen have thought of nominating ex-President Harrison, but he has declined the honor on the ground that he could not give the necessary time to the duties of the office.

Large Man an Explanation Due.

Springfield, Ill., May 17.—Edith Jones, the 16-year-old daughter of Mrs. Tillie Jones, a restaurant keeper, was brought here Saturday morning by the sheriff from Gilman. The girl was arrested at that place at the request of the girl's mother, while in company with Representative James M. Large, of Athens, Menard county. They left this city on Friday evening, the Jones girl going in defiance of the orders of her mother.

Sale of a Wisconsin Railway.

West Superior, Wis., May 17.—Property of the Duluth and Winnipeg railroad in Douglas county was sold on a mortgage foreclosure Saturday, being bid in for \$475,000 by a representative of the bondholders. It is supposed Jim Hill is thus given a hold of the Peter White interest, White being a large creditor.

Will Stand by His Action.

Madison, Wis., May 17.—The request of Commissioner Orr, of the Missouri insurance department, that Insurance Commissioner Fricks reconsider his action in canceling the Wisconsin license of the Citizens Insurance company, of St. Louis, has been denied. Missouri threatens retaliation.

Is Expected to Visit the Senate.
